

RADēCO

Remote Monitoring System for Constant Flow Air Samplers

page 1 of 500

Potential Problems

- Loss of electrical power
- Fuse blown
- Carbon vane failure
- Vandalism
- Various others

Solutions

- Monitor incoming power
- Monitor generated vacuum
- Monitor flow rate
- Monitor security of device

Benefits

- No or few missed samples
- Less manpower needed
- Improved public perception
- Possible extended sampling times

How?

Use RADēCO's
Telemetry Solution!
